

## Enjoy the freedom to “grow your own”

HighDroGro, provides the first “All in one” Hydroponics Home growing solution. A kit that provides you everything you need to grow your own pot, comfortably, anywhere in your home. Your living room, game room, man cave, spare room, walk in closet, you name it, the HighDroGro “all in One” Grow tent kit, is designed to be indoors.

When it comes down to it, our HighDroGro kit is the means to an end. You get one when you want to grow and harvest your own pot. You want simple and easy, you want it to look good and you want it to produce consistent, predictable results. You don't want to pay a ton of money for it...that's what we offer you”

Felix Alanis

HighDroGro (HDG) was founded by passionate founders who saw a need in the home growth cannabis marketplace.

The current tent market can be extremely challenging to navigate, as there are too many different options, exacerbated by the fact that individual accessories such as lights, filters etc. are plentiful and have countless options as well.

HighDroGro is a one stop shop tent solution, inclusive of accessories and everything you need to start your cannabis growing journey and better yet - you'll recover your total investment with the first harvest.

We take the confusion out of cannabis cultivation

HighDroGro CEO, Felix Alanis

“the first ever Cannabis All In One Grow tent Kit”

# THE STASH BOX
