

DAKINE 420

HIGH YIELD SCIENCE

CRAZY-GOOD, FINELY TUNED
SCIENTIFICALLY-PROVEN
PRODUCTS FORMULATED FOR
EXPLOSIVE PLANT PRODUCTION...

IT'S WHAT YOUR PLANTS WOULD CHOOSE !

Founded by a pioneer in the Cannabis cultivation industry, Dakine 420 strives to bring cutting edge, affordable grow supplies to the nationwide horticultural market. We make every effort in assuring our fellow gardeners are successful in their growing endeavors.

High Yield Science is the foundation of our company. We provide the tools to insure our customers obtain the best quality and highest yields in the shortest times possible. Short cycles and high yields increase profit and Dakine 420 helps achieve these goals in sustainable fashion.

Dakine 420 will be recognized as an industry leader backed by science, integrity and hard work. Our dedication to the Cannabis industry is unmistakable.

Dakine 420, IT'S IN THE NAME!

CUSTOM-BLENDED FERTILIZERS,
GROW MEDIUMS &
NATURAL INSECT REPELLENTS
FOR INDOOR & OUTDOOR
HORTICULTURE

Our Mad Scientist and his brilliant minions have masterminded the planet's most perfect plant nutrient system. Dakine 420's super-concentrated, super-soluble products are formulated in the perfect ratios for optimum plant performance. Our easy-to-use system keeps the right nutrients available just when your plants need them. Put the hurt on insect, fungus and disease problems while increasing plant health dramatically. Our unique four-step formulas make it easy to grow a crazy-good crop!

NITRO NUTRIENTS

GROW

BASE

BLOOM

ATOMIC
ROOT POWDER

Dakine 420's **Nitro Nutrients GROW** keeps your plants from being co-dependently wilting in the self-help section of Barnes & Noble. We keep them healthy and vigorous with pure calcium, free of chloride, sodium and heavy metals, along with nitrate nitrogen—the most efficient nitrogen source for superior plant growth. **Nitro Nutrients GROW** keeps your plants happy, healthy and—gosh darn it—thriving throughout the growing season.

Our **Nitro Nutrients BASE** is so awesome, we're certain it could somehow lead to world peace through the "butterfly effect." With carefully balanced NPK, plus trace minerals to meet all your plants' needs, **Nitro Nutrients BASE** provides the ideal ratios for maximum vegetative growth, leading to fast-flowering results. **BASE** works hand-in-hand with **GROW** to provide all the micronutrients needed for accelerated plant growth; when used with **BLOOM**, **BASE** promotes healthier, larger buds, flowers & fruits! Whatever the growing environment, Dakine 420 will maximize your yields.

Here comes the **BLOOM!** Our super finishing formula supplies NPK in perfect balance (with 3 times more potassium than nitrogen) to assure high yields and trophy buds. You might think of it as the botanical version of the Big Bang!

Nitro Nutrients BLOOM utilizes the super brain cells of a bevy of scientists who have formulated the optimal phosphorus-to-potassium ratio to beef up biomass and stalk development, and fire up flowering. Elevated magnesium elevates photosynthetic efficiency for optimal growth, especially for fast-growing annuals.

For explosive flowering and fair-winning fruit, **Nitro Nutrients BLOOM** is the bomb!

We'd like to say that our **Nitro Nutrients ATOMIC ROOT POWDER** "literally" makes your roots explode. But actually, it "figuratively" makes them explode. Anyway, **ATOMIC ROOT POWDER** is our unique root-enhancing formula made to grow and maintain a massive and healthy root system throughout the growing season from start to finish.

NUTRIENTS**

LEADERS IN PLANT GROWTH TECHNOLOGY

WATER SOLUBLE POWDERED NUTRIENTS

- ✓ PH balanced
- ✓ Dissolves in seconds
- ✓ No sediment
- ✓ No plugged feed lines
- ✓ No mess
- ✓ No heavy lifting

COST EFFECTIVE

- ✓ High profit margins
- ✓ Lowest cost per gallon
- ✓ Small retail footprint
- ✓ High R.O.I.
- ✓ Sustainable
- ✓ Less shipping costs

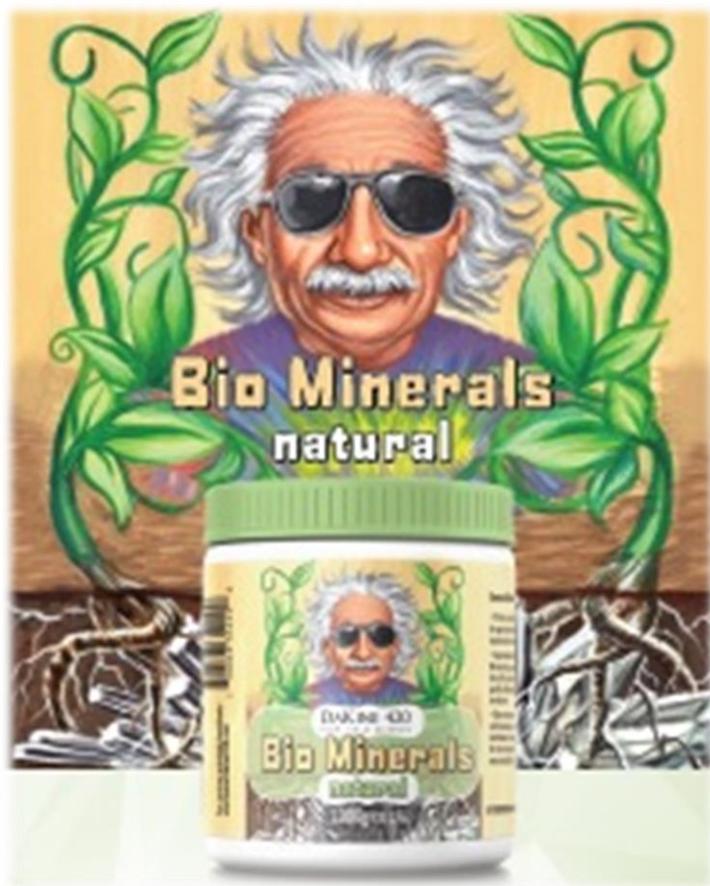

OUTSTANDING RESULTS

- ✓ Higher yields
- ✓ Higher potency
- ✓ Higher Brix readings
- ✓ Healthier plants
- ✓ Fewer pests
- ✓ Accelerated root development

DAKINE 420
HIGH YIELD SCIENCE

The Microscopic Dream Team

It's a well-known fact, by those in the know, that beneficial bacteria are essential for optimal mineral uptake by plants. So our Mad Scientist has put together the microscopic dream team for optimal plant vigor. Bio Minerals combines the highest quality mineral nutrients with the best blend of bacteria to deliver them. Like Michael Jordan bringing the ball to the hoop, Bio Minerals is a soil inoculant slam dunk!

We pack this product with various strains of bacillus bacteria at 1 billion CFU (colony-forming units) per gram—one of the most highly concentrated mineral-based bacteria blends on the market!

The Mad Scientist builds this mineral MVP with trace elements and ancient fossilized bacteria taken from the ground at over 170 degrees. His own custom-cultured bacteria communities give the assist with billions of players and no bench warmers.

Add Bio Minerals to your next grow and score big!

BIO MINERALS

PURE COCO COIR

Pure Coco Coir is a soil-less coco coir-based grow medium made with Premium 100% pure high-quality coco coir pith, double-washed to remove excess salts and pH balanced. It is suitable for indoor, greenhouse and outdoor use, either alone or mixed with your favorite amendments.

Ingredients: Premium 100% Pure High-Quality Coco Coir Pith, Double Washed and pH Balanced.

COCO COIR LITE

Coco Coir Lite is a soil-less grow medium that maintains an ideal water-to-air ratio for indoor, greenhouse or outdoor growing. Combined with our premium coconut coir fiber, it is precisely blended with superb amendments.

Our special, over-scrutinized "Mad Scientist" formulation makes other products look like they were made in high school beginning chemistry classes. Yeah, it's that good!

Ingredients: Coco Coir Fiber, Perlite,, Dolomite (pH control), Yucca Extract, Minerals, Endomycorrhizae and Beneficial Bacteria.

ORGANIC COCO COIR BLEND

Organic Coco Coir Blend is an all-natural soil-less grow medium made with the finest all-natural ingredients. Our Mad Scientist and his "main squeeze," Mother Nature, teamed up to blend the perfect ratios of our Pure Coco Coir with supreme amendments.

Ingredients: Coco Coir Fiber, Alaskan Peat, Perlite, Compost, Glacial Rock Dust, Worm Castings, Fish Bone Meal, Bat Guano, Kelp Meal, Minerals, Endomycorrhizae and Beneficial Bacteria.

DAKINE 420™
HIGH YIELD SCIENCE

FLAT LINE™

NATURAL INSECT REPELLENT FOR USE ON MITES AND APHIDS

NATURAL INSECT REPELLENT FOR USE ON MITES AND APHIDS

What if Mother Nature and the Mad Scientist had a love child?

If there's one thing that bugs the Dakine 420 Mad Scientist, it's insects and mites that plague your plants and lower your yields. Fortunately, he and Mother Nature have a "thing," so she's revealed a big secret to him: An all-natural pest control formula that works!

Our new Flat Line pest control product is the lovechild of his madman mojo and the wild wisdom of Mother Nature. The result is a potent, all-natural bug buster that falls under federal guidelines FIFRA 25(b) minimum risk ingredients. Don't think for a second that our Flat Line product is a weak alternative to harsh EPA-approved chemicals. Nay-nay, my friend. Flat Line is the bane of bugs, sending spider mites, broad mites, russet mites, white flies, fungus gnats and root aphids into cardiac arrest.

Flat Line is effective as a foliar application and can also be used as a soil drench. Unlike harsh chemicals, it won't taint the taste of your treasures or send your environmentally conscious customers into a tizzy.

Grow buds, not bugs!

FLAT LINE

Our team has been consistently building relationships with individual growing enthusiasts, retailers and dispensaries as well as small, medium and large marijuana producers across the U.S. Customers who are accomplishing “phat” success with our Dakine Nitro Nutrients and Coco Coir grow media range from 2,000 sq. ft. facilities or less up to 30,000 sq. ft gardens. Whether growing cannabis indoor or outdoor, our customers are witnessing fantastic results!

WE

APPRECIATE

those who have taken the time to provide us with testimonials. We also want to thank those who have supplied us with pictures and videos.

WE

ENCOURAGE

others to provide their testimonials/feedbacks which will help us to provide exceptional customer support.

The following testimonials can be found on our website:

<http://www.dakine420.com/customers-photos>

“We want to give a shout out from a stores perspective. We were contacted by Mark East about a year ago. It takes a very good sales person to convince a store to bring in another nutrient. We're glad he was so persistent! We have 14 nutrient lines. Dakine420 is by far our customers' favorite. It's easy to use and results don't lie. The coco is just an added bonus. We've turned many soil users into coco lovers. We carry the Dakine Organic Coco Coir Blend and Coco Coir Lite.”

“Mark takes not just great care of us, he takes care of my customers. No other nutrient line is on the phone direct with a customer troubleshooting. If you own or work at a hydro store and ready for a new line, Dakine 420 is for you. The product has it all. It works and plus the packaging is pretty dang cool!”

“Thanks Kelly, Mark and Jill!”

— **Bobbi Jo Floyd, Anything Grows,**
<http://www.anythinggrowsilc.com/>

“Dakine has changed everything for us. Our patients love the new product we are producing. We love how we don't have to drag gallons of heavy nutrients to feed our babies. It's so convenient and it produces twice of what we use to produce. We are going to be entering our product for some awards for 2016 and we will be sure to credit Dakine! Thanks again guys for the amazing product.”

— **Jessica, Sticky Leafs Collective, Medical Producer**

“Love your product and customer service is impeccable! Your coco is clean light and works great in my drain to waste setup. Would highly recommend it to my friends and family for higher yields and consistency.”

— **Tyler, Hydroponic Retail Store**

“No more sludge or plugged lines. This stuff is clean! My reservoir has not been cleaned in three months and looks new. Oh yeah, the plants are kicking ass!”

— **John W., Medical Producer**

“I mixed up a batch and it came out PH-perfect at 6.2. No up, no down. Healthy, beautiful plants. Thanks for hooking me up!”

— **Mike, Recreational Producer**

“The Nitro Nutrients line produced very satisfactory results, and every component performed as well, if not better than expected. The sales team at Dakine is top notch and we look forward to working with them!”

— **Thom Kondoff, The Cultivation Station,**
<http://tcs-hydroponics.com/>

“The nutes did fantastic sir, crop was stolen...needless to say, I'm going indoors. We will bounce back dude, but yea, your stuff seemed to be killing it. That could be your slogan... 'Nutes so good, they incite theft' Lol”

— **Cameron, Individual**

“I have been working in horticulture for over 10 years, and this is by far the most balanced nutrient line I have ever seen! I will put this balanced formula against any of the so-called "main suppliers" like AP, GH, H&G, and all the others-while putting out a far superior product. Although I do use my own formulation and add additives to structure the plants the way I prefer for maximum terpene and trichome production, this is the best base to use by far to not only simplify but to attain the overall goals you wish to achieve! I have been using Dakine 420 nutes approx. 2 years now and I don't see a need to switch! Instagram @knockoutfarms for proof.”

— **John, Knock Out Farms, Medical Producer,**
<https://www.instagram.com/knockoutfarms/>

“Great product!!! Easy to mix and the plants love it! Customer service is bar none, thank you Mark (East)! Been running the Dakine Nitro Nutrients for 6 months and couldn't be more impressed with the finished product. My customers are eating this product up. Big props to the Dakine 420 staff and makers of this fine product. Check out "knockoutfarms" on Instagram for up to date pics of the product in use.”

— **Dana Pino, Manager, A+ Hydroponics and Organics,** <http://aplushydro.com/>

WE'RE COMMITTED TO

creating positive social change in the Cannabis industry and support such advocacy groups as the Marijuana Policy Project, the Drug Policy Alliance, NORML and FAMM. In addition, we are a proud sponsor of measure #91 in Oregon. The combined efforts help educate and promote drug policies that are ethical and fair-minded.

Besides contributing to the above programs, Dakine 420 consistently partakes in the following Cannabis events:

- CannaCon Seattle, proud Gold Sponsor
- CannaCon Santa Rosa, proud Gold Sponsor
- THC Fair Bend
- THC Fair Medford
- The Marijuana Business Conference & Expo Las Vegas

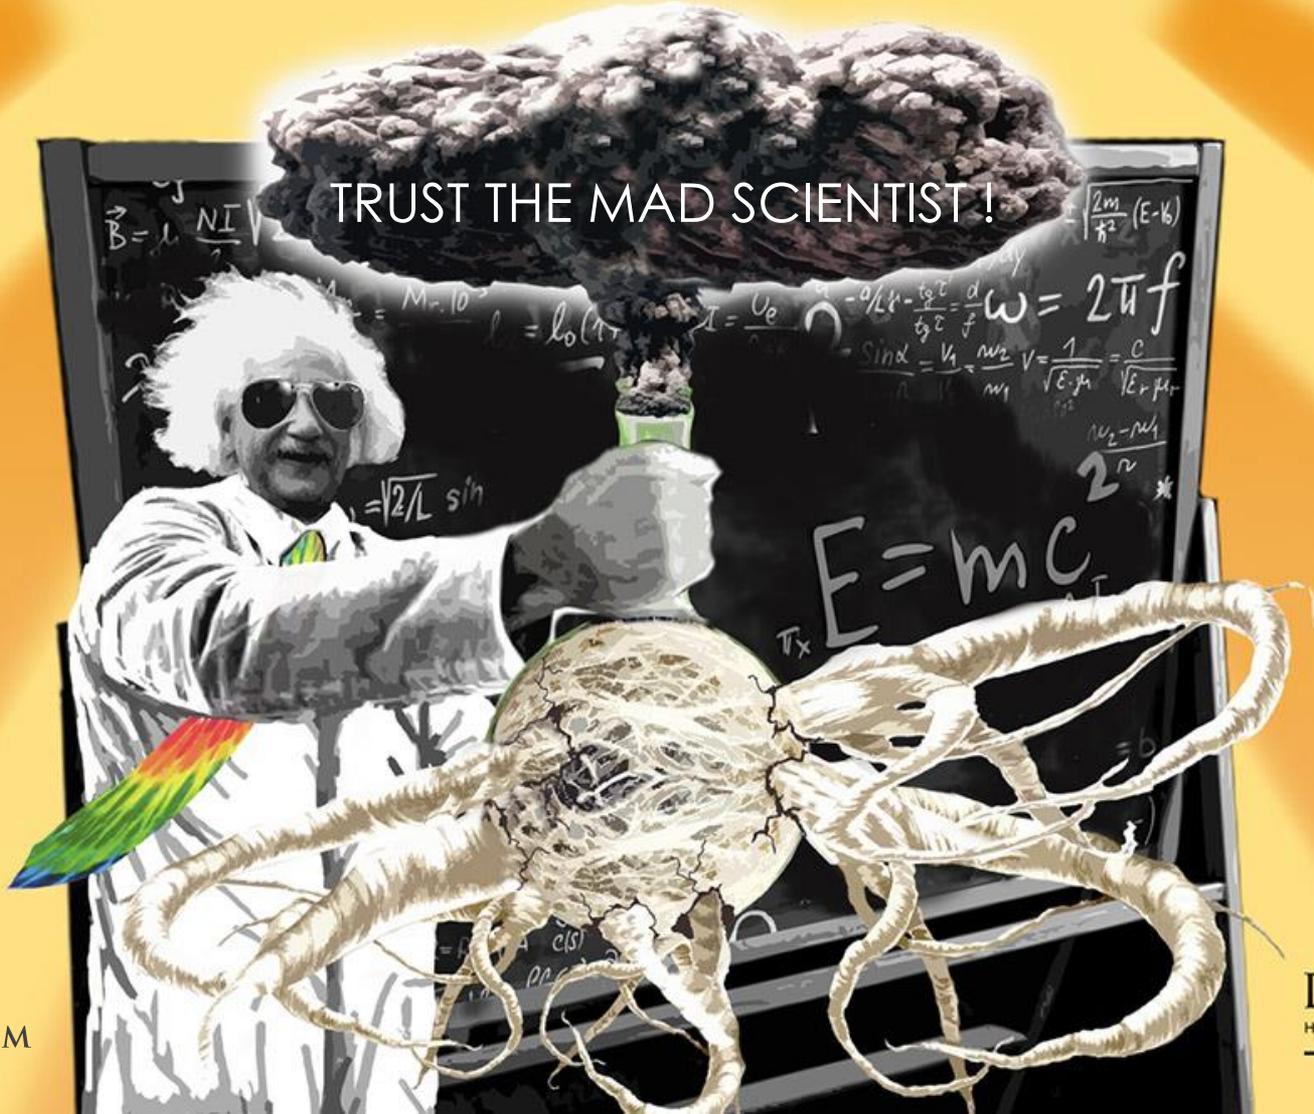

Dakine's team also consists of experts in marketing, social media, sales and customer service. Together with our sister company [Cannafo, LLC.](#), we make it a priority to stay connected to our peers by cross promoting, engaging in several social media sites, running full page ads in Dope and Releaf Magazine as well as publishing press releases on the national level.
